

Stainless Steel Door Handle

The Superior 25 Stainless Steel Door Handle delivers a premium combination of aesthetics, feel and long-term performance.

Manufactured from high-grade Austenitic Stainless Steel, it features a large, sculpted curved lever grip designed for superior ergonomics and comfort.

Available in a range of finishes, the handle provides exceptional durability, corrosion resistance and a refined appearance for the lifetime of the door.

Features

- Surface finish and mechanical guarantee for 25 years.
- Designed to suit both Left and Right handed doors.
- Each handle set is sprung to ensure return to 90 degree every time for positive feel and continued good looks.
- Cylinder aperture is finished with additional material to ensure cylinder stability.
- Suited with and part of the Superior 25 Stainless Steel Range.

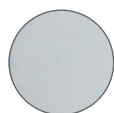

Specification

- Tested to 1000 hours neutral salt spray corrosion resistance exceeding EN 1906:2012 corrosion standard.
- Available in 240mm backplate with PZ 92 Lever/ Lever. PZ 92/62 Lever Offset / Lever and PZ92/62 Lever / Offset Pad options.
- Fixings included for 44mm, 48mm and 70mm doors.
- Constructed from SS304 Austenitic Stainless Steel.
